Aims

The aim of this module is to introduce students to different forms of communication and interpersonal interaction within health and social care.

Learning Outcomes

After completing the module the student should be able to:

- 1 Discuss the role of effective communication in Health and Social Care Practice
- 2 Recognise the factors that influence communication and interpersonal interaction
- 3 Identify strategies to provide opportunities for positive and effective communication

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Communication portfolio 1 2 3

Outline Syllabus

Lectures will introduce students to a range of themes relating to communication for health and social care. Indicative topics include self-awareness, active listening, verbal, non-verbal, formal and informal, person-centred communication.

Learning Activities

This module will be delivered using a broken lecture format that will include a combination of formal teaching, online learning activities, group discussion, small group work and workshop style activities.

Notes

This course will explore issues relating to communication within health and social care contexts.
