Aims

This module aims to enable students to develop the skills to undertake an investigation into a specific area of study that is relevant to their programme. There will be a common taught element to support students with the skills required and the process they need to go through in order to explore an area in depth. Seminars will run alongside this which will focus on a specific area and guide students to complete a project.

Learning Outcomes

After completing the module the student should be able to:

- 1 Develop skills in order to find and understand different sources of information.
- 2 Study a specific area in depth and draw appropriate conclusions.
- 3 Present outcomes from the project in a written portfolio using appropriate academic conventions.
