Aims

The aim of this module is to introduce students to some professional codes of ethics and standards and to consider their purpose.

Learning Outcomes

After completing the module the student should be able to:

- 1 Discuss the principles and values which underpin professional code of ethics and standards
- 2 Consider issues related to individuals' unique needs
- 3 Recognise ways that practice can consider the wellbeing of individuals using health and social care services

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Case Study	1	2	3
------------	---	---	---

Outline Syllabus

Lectures will introduce students to a range of themes relating to values and ethics in health and social care. Indicative topics include values, rights, person- centred approaches.

Learning Activities

This module will be delivered using a broken lecture format that will include a combination of formal teaching, online learning activities, group discussion, small group work and workshop style activities.

Notes

This course will explore issues relating to values and ethics in health and social care.
