

## Liverpool John Moores University

Title: SKILLS AND PERSPECTIVES 2  
Status: Definitive  
Code: **3104FNDFHE** (127647)  
Version Start Date: 01-08-2021

Owning School/Faculty: Psychology  
Teaching School/Faculty: Psychology

Team	Leader
Kayleigh Sheen	Y

**Academic Level:** FHEQ3  
**Credit Value:** 20  
**Total Delivered Hours:** 39  
**Total Learning Hours:** 200  
**Private Study:** 161

### Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	11
Tutorial	6
Workshop	22

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	Indiv pres	Individual presentation	40	
Report	report	Report	60	

### Aims

1. To facilitate the development of research and data skills as a foundation for students' current and future studies.
2. To prepare students to apply scientific approaches to solve problems.
3. To prepare students to think ethically about conducting research.

## Learning Outcomes

After completing the module the student should be able to:

- 1 Summarise scientific research on a selected topical issue within Psychology & Health
- 2 Explain methodological and ethical considerations in relation to addressing a research question
- 3 Present data in graphical and tabular formats
- 4 Discuss conclusions drawn from research data
- 5 Present a basic study in a lab report format

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Individual presentation	1				
Report	2	3	4	5	

## Outline Syllabus

*The syllabus will build on the general academic skills taught in Skills & Perspectives 1.*

*Lectures will introduce students to different methods used within Psychology & Health research, including both quantitative and qualitative approaches. These methods will be examined in more detail, and in some cases actively experienced, in the workshops. Students will undertake practical work in the workshops.*

*Students will learn to enter and display data in software packages such as Excel and SPSS.*

*Tutorials in smaller groups will focus on personal development planning and general academic skills such as writing and critical thinking.*

## Learning Activities

This module will be delivered using a combination of lectures, workshops and tutorials.

## Notes

This module provides students with basic skills in research methods and statistics as a foundation for Level 4 study.
