Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	15
Tutorial	15

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	Care plan	Care plan 3000 words	100	

Aims

To introduce students to the principles and concepts of patient care.

Learning Outcomes

After completing the module the student should be able to:

- 1 Discuss the assessment, planning, implementation and evaluation processes within the context of operating department practice
- 2 Demonstrate awareness of using verbal and non-verbal communication to develop effective relationships with patients/clients and the multi-disciplinary team
- 3 Identify the merits and demands of pre and post operative visiting

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Care plan	1	2	3
-----------	---	---	---

Outline Syllabus

Frameworks for care

The care process

Documenting peri-operative care

Communication and interpersonal skills

Promoting equality, diversity and rights.

Pre and Post-operative visiting

Learning Activities

A series of lectures to impart factual knowledge will be given and group tutorials will be utilised to broaden the students' knowledge base.

Notes

This module aims to facilitate students to assess, plan, implement, monitor and evaluate the care of individual surgical patients.
