

## Liverpool John Moores University

Title: FOUNDATIONS FOR CLINICAL PRACTICE (2)  
Status: Definitive  
Code: **3505PPCPOP** (110276)  
Version Start Date: 01-08-2014

Owning School/Faculty: Nursing and Allied Health  
Teaching School/Faculty: KPJ International College of Nursing and Health Sc

| Team        | Leader |
|-------------|--------|
| Sean Mackay |        |

**Academic Level:** FHEQ3  
**Credit Value:** 24.00  
**Total Delivered Hours:** 192.00  
**Total Learning Hours:** 240  
**Private Study:** 48

### Delivery Options

Course typically offered: Semester 2

| Component | Contact Hours |
|-----------|---------------|
| Practical | 156.000       |
| Tutorial  | 36.000        |

**Grading Basis:** Pass/Not Pass

### Assessment Details

| Category | Short Description | Description   | Weighting (%) | Exam Duration |
|----------|-------------------|---|---------------|---------------|
| Practice | AS1               | A portfolio containing evidence of clinical proficiency | 100.0         |               |

### Aims

*To enable students to apply the skills needed to plan, implement and evaluate the peri-operative care of patients as part of a multi-disciplinary team*

*To enable students to prepare, monitor and maintain materials and equipment for clinical procedures*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Assess the peri-operative care needs of patients
- 2 Plan the peri-operative care needs of patients
- 3 Implement, monitor and evaluate peri-operative plans of care
- 4 Prepare and monitor surgical materials and equipment
- 5 Prepare and monitor anaesthetic materials and equipment
- 6 Prepare materials and equipment for intravenous infusion and transfusion
- 7 Provide and monitor instruments and items for the surgical team
- 8 Monitor and maintain medical gas supplies in the operating department

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Reflections on practice    1    2    3    4    5    6    7    8

## Outline Syllabus

*The care process in practice*

*Preparation and monitoring of materials and equipment for surgical and anaesthetic clinical procedures*

*Anaesthetic machine*

*IPPV*

*Sutures*

*Basic instrumentation*

*Surgical and anaesthetic intervention*

## Learning Activities

36 hours of Clinical Tutorials will be used to assist the student to apply the knowledge base to the actual hands on work-based learning – 156 hours

Written reflections on practice learning will enable the student to contextualise learning in the workplace

## Notes

This practice module enables the student to demonstrate proficiency in responding to patient care needs and in the preparation and monitoring of materials and equipment for clinical procedures.

Written reflections on practice learning will be assessed formatively.

To be awarded a pass grade, the student must generate sufficient, valid and reliable evidence as measured against the standards of proficiency defined in the practice assessment document.
