

Liverpool John Moores University

Title: Preparing for Clinical Practice
Status: Definitive
Code: **4001NAFDN** (125646)
Version Start Date: 01-08-2021

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Alison White	Y

Academic Level: FHEQ4 **Credit Value:** 40 **Total Delivered Hours:** 83
Total Learning Hours: 400 **Private Study:** 317

Delivery Options

Course typically offered: Year Long & NS Year Long

Component	Contact Hours
Lecture	40
Online	20
Tutorial	2
Workshop	20

Grading Basis: Pass/Not Pass

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Practice	Pass/Fail	Practice Assessment Record (There will be a formative assessment of the PAR at the mid point of the Level)	99	
Exam	Pass/Fail	Numeracy Exam with 80% Pass mark	1	1

Competency	Practice
-------------------	----------

Aims

This module aims to develop the students skills and competencies required to practice the clinical skills required of a Student on this programme

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate a range of clinical skills utilised in caring for individuals within the parameters of the role
- 2 Demonstrate awareness of the Code of conduct and its relevance to a range of legal and ethical issues in practice
- 3 Achieve the competencies specific to their role in clinical practice, including numeracy.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Practice Assessment Record	1	2	3
Numeracy Exam	3		
Practice	1	2	3

Outline Syllabus

Moving and Handling. Basic Life Support to include recovery position and maintenance of airways. Core skills leading to the Care Certificate. Applied consent and confidentiality. MMSE, MUST, BMI. Physical observations practice and recording. Infection control. Fluid balance and nutrition. Physical Health Checks. Introduction to the safe management of medication. NMC Code to include Record Keeping. Legal and Ethical Aspects of care to include Safeguarding. Health and safety in clinical practice.

Learning Activities

A range of learning activities will be used for module delivery including lectures, seminars, simulation workshops, web based activities, reflective practice, diagnostic assessment, formative assessment, including OSCE's, guided reading, and independent study.

Practice-based activities on clinical placement supervised by a supervisor / assessor.

Notes

This module aims to prepare the student to actively participate in a range of practice learning environments. It introduces the skills and professional behaviour necessary

to meet health and social care needs across the lifespan.

This practice module includes university-based skill development activities designed to enable students to confidently engage in learning activities whilst on placement.

This is reflected in the total contact hours for the module. These are designed to prepare students for all practice learning that meets the standards for pre-registration education. Hence, this contact will be reduced as the student progresses through the programme.

The 20 hours allocated to Workshop reflects the hours of simulation within the module. Protected learning time of a minimum of 7.5 hours per week, although undertaken in practice sits within the private study module hours.

Practice is assessed through a Practice Assessment Document and all domains included in the Practice Assessment Document must be passed

There will also be a summative numeracy exam. Pass mark 80%
