Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	Port	Portfolio of exercises	100	

Aims

NAEST forms part of the education and training required to obtain a UK MCA Certificate of Competency. It delivers the fundamental knowledge and skills required to maintain a safe navigational watch, use electronic navigational aids to determine vessel position and equipment for safety of navigation in anti-collision modes.

Learning Outcomes

After completing the module the student should be able to:

- 1 demonstrate competency in the knowledge and skills fundamental to keeping a safe navigational watch on-board a ship at sea.
