Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	ASS1	A collection of work from across the module, including online assessment, mini-reviews and written discussion	100	

Aims

After completing this module, students will be able to discuss relevant theoretical models of media engagement and technological advancement as they relate to health and social care, and the effect this has on individuals and contemporary society.

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify and discuss media's influence on people in society in relation to health.
- 2 Recognise the role of technology and media in contemporary health and social care.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Portfolio	1	2
-----------	---	---

Outline Syllabus

Media and its influence

Technological advances in health and social care

Our engagement with news media

Our engagement with technological health innovations

Public understanding of these matters

Issues to underpin discussion in relation to health may include; cyber-bullying, media and body image, celebrity, terrorism, fake news, social media, 'wellness' industry, advertising, ethics and morals in healthcare, judgement, moral panics and health scares.

Learning Activities

Learning activities will adopt a broken lecture format that will include a combination of formal teaching, group discussions, small group work and workshop style activities.

Notes

Students will explore modern advancements in media and health technology and the effects that this has on individuals and society.
