**Academic Level:** FHEQ4      **Credit Value:** 20      **Total Delivered Hours:** 48  
**Total Learning Hours:** 200      **Private Study:** 152

### Delivery Options

Course typically offered: Semester 1

Component	Contact Hours
Lecture	38
Workshop	10

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	ASS1	15 min poster presentation	30	
Report	ASS2	1500 word report	70	

### Aims

*To provide students with an insight into the key themes and concepts that occur in public health, as they begin their course and as they progress through their programme of study and into a career in public health.*

### Learning Outcomes

After completing the module the student should be able to:

- 1 Identify the key themes and concepts relevant to public health.
- 2 Discuss the relevance of these key themes and their impact on public health.

### **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Poster presentation	1
Report	2

### **Outline Syllabus**

*The module will cover concepts such as risk; communication; interventions; inequalities; globalization and research in relation to public health. It will also include sessions around health promotion, health protection, epidemiology and surveillance. The module will look to provide definitions of these concepts and how they are integrated into public health.*

### **Learning Activities**

Interactive lectures and presentations, guided reading, student led discussions and VLE activities.

### **Notes**

This module will introduce all of the core and underpinning areas of public health, in terms of technical, contextual and delivery-based concepts as aligned with the UK Public Health Skills and Knowledge Framework and will serve as a springboard to students' further studies.
