### Aims and Outcomes

Aims	To provide students with an insight into the practical skills that are necessary as they begin their course and as they progress through their programme of study and into a career in Public and Environmental Health.
------	---

**After completing the module the student should be able to:**

**Learning Outcomes**

Code	Number	Description
MLO1	1	Identify the range of practical skills relevant to public and environmental health
MLO2	2	Consider this range of practical skills and why they are important for Public and Environmental Health
MLO3	3	Demonstrate a level of competence in the practical application of these skills

**Module Content**

Outline Syllabus	The module will cover the range of practical skills that are relevant to Public and Environmental Health. It will cover areas such as data handling and interpretation; collection, recording and dissemination of information; observation, negotiation; persuasion; infographics; communication, group collaboration, project development, working with others. The module will consider the theory behind these practical skills, as well as their application.
Module Overview	This module provides you with an insight into the practical skills that are necessary as you begin your course and as you progress through your programme of study and into a career in Public and Environmental Health. This module looks to introduce you to a range of practical skills that will be useful for a career in Public Health or Environmental Health. The module blends both taught and practice elements together to enable you to have not only an understanding of why these skills are important but the opportunity to practice them.
Additional Information	This module looks to introduce students to a range of practical skills that will be useful for a career in Public Health or Environmental Health. The module blends both taught and practice elements together to enable students to have not only an understanding of why these skills are important but the opportunity to practice them
