Aims

1 To extend understanding of creative production practice

2 To explore animation practice and rostrum camera techniques

Learning Outcomes

After completing the module the student should be able to:

- 1 Take a creative approach to the production process utilising animation and rostrum techniques practices.
- 2 Apply research, planning, and appropriate project management practice.
- 3 Apply advanced craft skills of filming and editing.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Individual Media Artefact	1	2	3
Group Media Artefact	1	2	3

Outline Syllabus

Lectures and workshops will introduce students to a variety of production techniques including the rostrum camera, 2D parallel and stop-frame animation. In groups students will produce a short factual film of around 5 minutes duration. Practical workshops will demonstrate 3-point lighting, sound recording and refine Avid craft skills.

Learning Activities

Lectures, practical workshops and individual and group tutorials.

Notes

During the first part of the module, students will, individually develop examples of animation and motion graphic practice. This module will help extend students' understanding of the production process and introduce a variety of techniques that will complement the development of a short factual film narrative.
