Aims

The module aims to provide an introduction to business economics as a foundation for further study. The emphasis will be economic theory and concepts developed from real world business issues. Essentially this module introduces students to economics and applications related to business.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate knowledge of the role and functioning of markets
- 2 Illustrate the importance of elasticity and its effect on revenues and profits
- 3 Demonstrate knowledge of how firms determine prices and output under different market conditions.
- 4 Explain the importance of costs in economics and business
- 5 Describe the main objectives of macroeconomic policy.
- 6 Describe the nature of the controversy over the causes of and cures for unemployment and inflation
- 7 Identify the effect of different exchange rate regimes on business revenue, profits and investment.
- 8 Describe and appraise the debate over European single currency.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Coursework	1	2	3	4	5	6	7	8
------------	---	---	---	---	---	---	---	---
