Module Overview	This module introduces you to a range of values, attitudes and skills that underpin safe and effective clinical practice. You will develop your knowledge through lectures, practice focussed tutorials and skills simulations. Interactive web-based learning, scenario, work-based learning, and practice based reflective activities will be used to further develop your clinical skills.
Additional Information	The Academic Assessor will monitor that the student has completed 427.5 practice hours. This includes any practice placement learning and simulated practice learning, in accordance with the students programme plan. These hours are not included in the total module hours but are noted within the module proforma for university monitoring and progression purposes. In addition to the contact hours above there are 160 private study hours. 100 hours are guided, this includes online and assessment preparation. Online hours are e-learning. 60 hours are independent study Please note that workshop hours as listed in the above contact hours account for simulated theoretical learning, in accordance with NMC standard 3.4
