Workshop	20

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	Pres	A group presentation (30 minutes) outlining social determinants of health with reference to local data and context	100	

Aims

The aim of this module is to support students understanding of the impact of social determinants of health across the life span.

Learning Outcomes

After completing the module the student should be able to:

- 1 Explain the different social determinants of health and how they impact population health
- 2 Understand the importance of public policy in determining population health
- 3 Identify the principal sources of public health knowledge
- 4 Explore the relationship between social circumstances, health and an individual's capacity for self-determination

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Presentation	1	2	3	4
--------------	---	---	---	---
