Outline Syllabus

Students will be introduced to fine art history and to contemporary art in Liverpool, nationally and internationally. The syllabus will be refined each semester with reference to contemporary exhibitions and events, and a series of art historical lectures. These will provide a basis from which students will be required to research more broadly and reflect upon their own examples of professional art practice. Students will also engage with workshops around research and self-reflexive writing skills.

Learning Activities

This module is designed to promote independent critical and professional learning in Fine Art through engagement with art history and contemporary practice, and relate this to PDP skills. Learning activities will normally include field visits, lectures, seminars and workshops. The work will be supervised via a series of tutorials and on-line support for a blog.

Notes

This module requires students critically to reflect on their engagement with art both historically and contemporaneously, relating its relationship to their own studio practice via the upkeep of a blog, PDP and writing of an essay.
