

Liverpool John Moores University

Title: QUANTITY SURVEYING PROJECT 1
Status: Definitive
Code: **4116BEUG** (118119)
Version Start Date: 01-08-2014

Owning School/Faculty: Built Environment
Teaching School/Faculty: Built Environment

Team	Leader
Anupa Manewa	Y
Amr Sourani	
Aseel Hussien	
Dianne Marsh	
Damian Fearon	

Academic Level: FHEQ4 **Credit Value:** 24.00 **Total Delivered Hours:** 72.00
Total Learning Hours: 240 **Private Study:** 168

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	24.000
Workshop	48.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	AS1		65.0	
Presentation	AS2		25.0	
WoW Skills Bronze	AS4		10.0	

Aims

To enable students to apply the knowledge gained from modules within their first

year of studies to a suitable industry derived project and to facilitate self-learning through personal development planning and e-portfolio programmes.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate the ability to take responsibility for personal development.
- 2 Work professionally in a team environment.
- 3 Communicate orally in a professional manner
- 4 Produce construction project cost information
- 5 Apply built environment principles and techniques to a simulated low level domestic building project.
- 6 Develop and apply key study and academic skills.
- 7 Utilise appropriate architectural software to produce drawings.
- 8 To identify and reflect upon the following aspects of personal development: strengths and weaknesses, motivations and values, ability to work with others.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Portfolio	1	2	4	5	6
Presentation	3	7			
WoW Skills Bronze	8				

Outline Syllabus

This module will facilitate the learning process by enabling students to put the theory gained in all the first year modules into practice. A suitable work derived project will be simulated to provide the vehicle for this purpose. Within the module itself the following areas will be considered and applied to the project: CAD, presentations, outline and final designs, calculation of development costs.

This module will also facilitate the following: PDP/Goal Planning and Student Development, Key Skills, Groupwork and Presentations

Learning Activities

Lectures, workshops, group work and presentations

The central theme of the module is the production of a suitable work derived project and it is supported by the other modules within the first year programme.

Group work is a key theme of the module; the intention being to simulate the experience of the work place and work place activity, endorsed and approved by the involvement of employers and stakeholders as relevant to the workplace generally.

Key skills are developed through lectures, seminars, individual and group

presentations and the use of e-portfolio to facilitate personal development planning.

Notes

This module has been developed to encapsulate the spirit of WoW and PDP. The central theme of the module is the production of a suitable work derived project and it is supported by the other modules within the first year programme. Group work is a key theme of the module; the intention being to simulate the experience of the work place and work place activity, endorsed and approved by the involvement of employers and stakeholders as relevant to the workplace generally.
