Learning Activities

Lectures and "Flipped classroom" activities including workshops and seminars

On-line directed study and discussion

Discovery learning through visits to service providing organisations and engagement with service providers

Case-study focussed activity

Assignment tutorials

Poster exhibition

Notes

This module has been designed to enable new undergraduate students to gain a broad understanding of the range of organisations and individuals who make up the contemporary health and social care sector. It will build upon their personal interests, motivations and career aspirations. Classroom-based activities and visits to service providers and allow them to explore what their future contribution could be either as

a volunteer, practitioner, professional or within a management or strategic role.
