

# **Integrative Project**

## **Module Information**

**2022.01, Approved** 

### **Summary Information**

Module Code	4225BEUG
Formal Module Title	Integrative Project
Owning School	Civil Engineering and Built Environment
Career	Undergraduate
Credits	20
Academic level	FHEQ Level 4
Grading Schema	40

#### **Teaching Responsibility**

LJMU Schools involved in Delivery

Civil Engineering and Built Environment

## **Learning Methods**

Learning Method Type	Hours
Lecture	11
Workshop	22

## Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
JAN-CTY	CTY	January	12 Weeks

### **Aims and Outcomes**

	p understanding of collaborative group work for a built environment project.To nderstanding of the role of different professional disciplines in the built environment.
--	---

### **Learning Outcomes**

Code	Number	Description
MLO1	1	Work and communicate professionally in a collaborative team environment.
MLO2	2	Understand the roles of each professional discipline and the decisions made at the various stages of a built environment project
MLO3	3	Utilise appropriate software to develop and present built environment project work.
MLO4	4	Identify and reflect upon selected aspects of self-awareness in respect of personal development and planning for a career in the Built Environment.

### **Module Content**

Outline Syllabus	This module will facilitate the learning process by enabling students to apply knowledge and skills to a built environment project. Students will work collaboratively in small groups and a typical project will include the following:team work and working in groups; roles and responsibilities; site analysis & property market research; development schemes; plans of work, principles of negotiation and decision making; sustainable design; financial and legal considerations; application of appropriate software to support the decision making process and to support the final project presentation. This module will include formative feedback provided by tutors.
Module Overview	This module develops your understanding of collaborative group work and of the role of different professional disciplines in the built environment. You will work and communicate professionally in a collaborative team environment to understand the roles of each professional discipline and the decisions made at the various stages of a built environment project. Utilising appropriate software, you will develop, present and reflect on built environment project work.
Additional Information	This module develops understanding of collaborative group work and develops understanding of the role of different professional disciplines in the built environment.

### **Assessments**

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Presentation	Group Presentation	60	0	MLO1, MLO2, MLO3
Essay	Individual Report	40	0	MLO2, MLO3, MLO4
