

Work Based Project 1

Module Information

2022.01, Approved

Summary Information

Module Code	4321BEUG
Formal Module Title	Work Based Project 1
Owning School	Civil Engineering and Built Environment
Career	Undergraduate
Credits	20
Academic level	FHEQ Level 4
Grading Schema	40

Teaching Responsibility

LJMU Schools involved in Delivery
Civil Engineering and Built Environment

Learning Methods

Learning Method Type	Hours
Lecture	1
Off Site	70
Workshop	10

SEP-CTY	CTY	September	12 Weeks

Aims and Outcomes

Aims	This module aims to provide the student with the ability to develop, demonstrate and reflect on the knowledge, skills and behaviours that are required by their appropriate professional routeway i.e. C.I.O.B, RICS, CIBSE, CIAT etc through their workplace.
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Reflect upon their learning, performance and achievement of the knowledge, skills and behaviours of their applicable apprenticeship standard.
MLO2	2	Identify the skills and competencies from their appropriate professional routeway.
MLO3	3	Develop a personal development plan mapping their learning needs towards achieving the knowledge, skills and behaviours of their applicable apprenticeship standard and competencies of their professional routeway up to the End Point Assessment.
MLO4	4	Demonstrate and evidence personal and professional development, managing their own learning needs.

Module Content

Outline Syllabus	This module will facilitate the learning process by enabling students to apply previously gained knowledge and theory in a practical context through the workplace. This will be supported by workshops where students will be able to collectively discuss their experiences and progress on the knowledge skills and behaviours and those required for their relevant professional body. The development of the personal development plan will be agreed with the module team and the relevant workplace mentor. Regular meetings will take place with the workplace mentor to review progress and will be discussed at the workshop with the module team covering such aspects as, demonstrating and evidencing the 20% off the job training apprenticeship requirements, monthly mentor and apprentice meetings, the tripartite Academic Liaison Tutor meetings and their associated feedback and action plans.
Module Overview	
Additional Information	The central theme of the module is the production of a portfolio, incorporating a reflective report demonstrating their progress and development needs towards achieving the Knowledge, Skills and Behaviours within their applicable Apprenticeship Standard and professional routeway, an action plan for the completion of their appropriate professional routeway, including targets, timelines needed to complete the apprenticeship by the planned end date. On the Quantity Surveying Degree Apprenticeship programme, the Behaviour learning outcomes for this module are B1, B2, B3, B4 and B5. On the Construction Management Degree Apprenticeship, the knowledge learning outcomes are K5, K8 and the Behaviour learning outcomes are B1, B2, B3, B4 and B5.
