## **Notes**

By providing you with an understanding on how you can engage with the world, this module helps encourage your political development. It is not the purpose of the module to tell you what to believe in but it is responsible for showing you how you can advocate your political positions. This module brings in activists, experts and scholars to discuss how they are involved in politics in order to give you a grounding of the different ways in which you can engage with your own politics. A skills specific session will be incorporated in this module.
