Sean Mackay	

Academic Level: FHEQ4
Credit Value: 20
Total Delivered Hours: 36
Total Learning Hours: 200
Private Study: 320

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Placement/Practice	156
Tutorial	36

Grading Basis: Pass/Not Pass

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	AS1	A portfolio containing evidence of clinical proficiency	100	

Aims

To provide students with the skills to monitor, assess and care for patients in the immediate post-operative period

To enable students to contribute to treating patients during clinical emergencies

Learning Outcomes

After completing the module the student should be able to:

- 1 Manage the patient's airway in the immediate post-operative period
- 2 Monitor, assess and care for patients as they recover from surgery and anaesthesia
- 3 Hand over the care of patients to others
- 4 Identify and respond to clinical emergencies
- 5 Assist clinicians in treating patients during clinical emergencies
- 6 Promote equality and diversity of people
- 7 Promote people's right to the confidentiality of information

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Portfolio	1	2	3	4	5	6	7
-----------	---	---	---	---	---	---	---

Outline Syllabus

Caring for patients during recovery from immediate surgery and anaesthesia
Patient handover;
Recognising and responding to clinical emergencies
Promoting equality, diversity and rights in practice;
Confidentiality of information

Learning Activities

36 hours of Clinical Tutorials will be used to assist the student to apply the knowledge base to the actual hands on work-based learning – 156 hours

Written reflections on practice learning will enable the student to contextualise learning in the workplace

Notes

This practice module enables the student to become proficient in caring for patients during immediate recovery from surgery and anaesthesia and when handing over the care of the patients to others. The module also facilitates students to become proficient at dealing with clinical emergencies.

To be awarded a pass grade, the student must generate sufficient, valid and reliable evidence as measured against the standards of proficiency stated in the practice assessment documentation.
