Aims and Outcomes

Aims	The purpose of the module is to enable students to identify, understand, develop and articulate their key personal abilities in the context of their future career aspirations. The development of their academic and professional skill set is essential to securing and/or developing fulfilling careers as expert managers and leaders in increasingly diverse and international workplace organisations. Through the development of their critical, reflective abilities and their confidence and competence, they will evaluate their current strengths and weaknesses and take ownership of their personal and professional development. Cross-cultural sensitivity and responsible leadership are important conceptual underpinnings in this process.
