Academic Level:	FHEQ4	Credit Value:	10	Total Delivered Hours:	23.5
Total Learning Hours:	100	Private Study:	76.5		

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	11
Seminar	11

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS2	Examination	80	1.5
Reflection	AS1	Reflective task	20	

Aims

To introduce the notion of becoming a computing professional and working in the computing industry. To consider ethical frameworks and codes of conduct for the computing industry. To encourage personal development planning activities appropriate for career development.

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify a personal development plan to support their studies and future career path that demonstrates self-awareness.
- 2 Describe the ethical theories that have been used to formulate codes of conduct for computing professionals.
- 3 Recognise and explain the legal landscape that applies to the computing profession.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Examination	1	2	3
Reflective task	1		

Outline Syllabus

Digital citizenship

Information access and consumption

Ethical computing

Professional codes of conduct for Computing

Computing and the law

Social networking

Green and environmentally sustainable computing

Personal Development Planning

Career preparation

Learning Activities

Lectures will be used to support theoretical knowledge. Small group seminars will be used to discuss the context of the lectures for each programme cohort. Personal Tutors will provide regular support to this module and work with students to help formulate their individual development plan.

Notes

This module provides students with an opportunity to consider their future role as a computing professional and develop a plan that can be used to enable them to progress in their chosen career.
