Aims

This module aims to provide students with the resources, skills and knowledge to optimise opportunities provided in the workplace to develop and strengthen a range of professional skills, relevant to future working in a public health setting, via participation in an public health based project.

Learning Outcomes

After completing the module the student should be able to:

- 1 Use reflective techniques to optimise learning from the implementation of activities in the workplace.
- 2 Demonstrate the ability to develop and strengthen a range of professional skills, relevant to future work in a public health setting.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

portfolio of prof skills	1	2
--------------------------	---	---

Outline Syllabus

Learning theories and styles

Time management

Writing Learning Agreements and project proposals

Project management

Reflective writing

Portfolio building

Learning Activities

Lectures, workshops

Notes

This module supports students in developing the knowledge and skills to plan, undertake and evaluate their own public health based project. Students identify a project and arrange a placement in an appropriate professional or community organisation. Assessment is by report and typically this will contain: a outline the rationale for the project; the project's aims and objectives; information about the progress of the project; an evaluation of how the student has met personal and professional goals; a reflection on what the student has learnt about him/herself during the project.

Students will also include their CareerSmart: experience statement.
