Aims	This module aims to provide students with the resources, skills and knowledge to optimise opportunities provided in the workplace to develop and strengthen a range of professional skills, relevant to future working in a public health setting, via participation in an public health based project.
------	---

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Use reflective techniques to optimise learning from the implementation of activities in the workplace.
MLO2	2	Demonstrate the ability to develop and strengthen a range of professional skills, relevant to future work in a public health setting.

Module Content

Outline Syllabus	Learning theories and styles Time management Writing Learning Agreements and project proposals Project management Reflective writing Portfolio building
Module Overview	This module provides you with the resources, skills and knowledge to optimise opportunities provided in the workplace, and to develop and strengthen a range of professional skills, relevant to future working in a public health setting, via participation in an public health based project. This module supports you in developing the knowledge and skills to plan, undertake and evaluate your own public health based project.
Additional Information	This module supports students in developing the knowledge and skills to plan, undertake and evaluate their own public health based project. Students identify a project and arrange a placement in an appropriate professional or community organisation. Assessment is by report and typically this will contain: a outline the rationale for the project; the project's aims and objectives; information about the progress of the project; an evaluation of how the student has met personal and professional goals; a reflection on what the student has learnt about him/herself during the project. Students will also include their CareerSmart: experience statement.
