**Academic Level:** FHEQ5      **Credit Value:** 20      **Total Delivered Hours:** 39  
**Total Learning Hours:** 200      **Private Study:** 161

### Delivery Options

Course typically offered: Runs Twice - S1 & S2

Component	Contact Hours
Lecture	18
Practical	10
Seminar	10

**Grading Basis:** Pass/Not Pass

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Practice	PAR	1 X Domain of PAR document	99	
Exam	Maths	This must be passed by 80%	1	1

<b>Competency</b>	Practice
-------------------	----------

### Aims

1. To build upon the student's underpinning knowledge of theory in relation to clinical

skills.

2. To deliver nursing skills in an increasingly autonomous manner.

## Learning Outcomes

After completing the module the student should be able to:

- 1 Safely achieve all the practice based learning competencies required by the second progression point.
- 2 Undertake appropriate drug calculations for the safe delivery of care.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Practice Assessment Record	1	
Numeracy	2	
Practice	2	1

## Outline Syllabus

*This module will further develop students understanding of and skills in:*

*Professional codes, ethics and law*

*Clinical observation and assessment*

*Working with others & Service user engagement, Admission & discharge planning*

*Communication and healthcare informatics*

*Compassion and dignity and emotional support .*

*Safeguarding*

*Autonomy, independence and self-care*

*Core skills CPR and manual handling*

*Activities of Daily Living: Eating, drinking, nutrition and hygiene, comfort and sleep, elimination*

*Pain management*

*Skin health / wound management*

*Infection prevention and control.*

*Numeracy*

*Venepuncture*

## Learning Activities

Practice - based activities on clinical placement supervised by a mentor

Key note Lectures

Skills simulation

Workshops including role play and scenario based learning

Interactive web based activities

## Notes

This module will offer opportunities for students to act in an increasingly competent and autonomous manner in clinical placements. The module will include annual mandatory training in CPR, manual handling and numeracy.

This module aims to extend the student's generic and field knowledge and skills through undertaking a range of basic and complex practice learning opportunities. Students will work with less direct supervision to make the most of opportunities to extend knowledge, skills and practice. Practice learning is supported by a formative skills inventory. Enhanced skills are taught in university to prepare students for practice. However, in recognition of the students' acquisition of skills in level 4, university contact hours are reduced.
