The content of each learning agreement will vary, but it is expected that each learning outcome is addressed within the assessment. Generic content areas will include; care certificate, reflection, evaluation and assessment

Learning Activities

The negotiation of a learning agreement will be supported by formal tutorials, group work, action learning and academic support. Work related learning subject as negotiated between the mentor, student and academic facilitator.

Notes

The selected area of study must be identified by the student and their mentor. A learning agreement is then developed in a tripartite negotiation. This is assessed through the production of a portfolio of evidence of a practice issue.
