Essay	Essay		25.0	

Aims

The module aims to explore the theory and process that underpins the implementation of sport psychology services with sport performers, and to establish

how sport psychology skills and techniques can be applied in sport performance settings.

Learning Outcomes

After completing the module the student should be able to:

- 1 Apply the techniques that govern Sport Psychology needs analysis and client education.
- 2 Apply the skills that govern Sport Psychology intervention.
- 3 Discuss the methods used to evaluate applied sport psychologist's effectiveness

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Case study workshop & report	1	2
Discursive essay	3	

Outline Syllabus

Making contact, building rapport and negotiating roles

Doing a needs analysis

Feeding back and designing interventions

Psychological skills training

Delivering intervention programmes and educational workshops

Evaluating consultant effectiveness

Learning Activities

The module delivery combines lectures, evaluating the psychological application of the technique / skill and the theory/research that underpins it, with workshops that actively explore the practical application of the relevant skill(s) in sport performance settings. This permit the skills essential to Applied Sport Psychology practice to be taught and practiced,

Notes

This module forms the middle part of the core applied spine of modules running through the Applied Sport Psychology (ASP) programme, and is specifically tailored to and solely studied by its students. The module provides focused and relevant exposure to some of the skills central to Applied Sport Psychology, and provides an appropriate bridge between the familiarization undertaken in Applied Sport Psychology Fundamentals at level 4 and the work-related learning engagement that

takes place in the Applied Sport Psychology Placement module at level 6.
