Academic Level:	FHEQ5	**Credit Value:**	12.00	**Total Delivered Hours:**	24.00
Total Learning Hours:	120	**Private Study:**	96		

Delivery Options
Course typically offered: Semester 1

Component	Contact Hours
Lecture	12.000
Practical	3.000
Tutorial	9.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Group Coursework: students work in project teams of 4/5 to develop a report based on a case study.	80.0	
Report	AS2	Individual Coursework: students reflect on the effectiveness of their Team and their own contribution to the Team performance, with reference to relevant literature.	20.0	

Aims

To equip students with knowledge and skills in Project Management principles and

practices, to enable them to conduct effective work or research in this area.
To provide students with practical skills in the use of a Project Management Information System.
To provide students with the experience of working on a 'real' project.

Learning Outcomes

After completing the module the student should be able to:

1   Apply Project Management principles, models and theories to relevant, real life situations.
2   Create, maintain and print Gantt Charts using Microsoft Project, utilising key features of this software package.
3   Reflect on their performance as a member of a Project Team within a Project.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CW   1   2

CW   3

Outline Syllabus

Project concepts and definitions
The Project Management Life Cycle
Project Initiation and Justification
Project Planning and Estimation
Project Success and Failure
The Project Manager
The Project Team
Project Management techniques

Learning Activities

The module uses a mix of lectures, tutorials and practical sessions to deliver its content. The practical sessions will use Microsoft Project and are essential for the successful completion of the assignment.
