

Liverpool John Moores University

Title: Research Supporting Midwifery Practice
Status: Definitive
Code: **5002MW** (124251)
Version Start Date: 01-08-2021

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Health

Team	Leader
Beverley Jervis	Y

Academic Level: FHEQ5
Credit Value: 10
Total Delivered Hours: 20
Total Learning Hours: 100
Private Study: 80

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	15
Tutorial	1
Workshop	4

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	AS1	Academic poster presentation-critique of a midwifery topic.	100	

Aims

To build upon the students research skills to enable them to underpin the care of the women and their families with current and valid evidence.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically evaluate the use of research within midwifery practice
- 2 Develop research skills in order to critically evaluate research methodologies.
- 3 Apply research skills to interrogate a midwifery topic/practice.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

PRES	1	2	3
------	---	---	---

Outline Syllabus

Ethics, application of research methodologies, collection of data, methods of data collection, data analysis, developing a research question relevant to midwifery practice and care, conducting a literature review, investigating the literature, investigation tools, relevant paradigms to investigation.

Learning Activities

Lectures with discussions, tutorial, presentations.

Students will be formatively assessed throughout this module and specifically by: small group presentations on ethics in research.

Notes

This module will enable the students to explore the research process. It will build upon the basic introduction to research gained in level 4.

This module assessment requires 40% minimum to pass the module.
