

## Liverpool John Moores University

Title: Clinical Examination, Assessment and Decision Making  
Status: Definitive  
Code: **5002PM** (125183)  
Version Start Date: 01-08-2021

Owning School/Faculty: Nursing and Allied Health  
Teaching School/Faculty: Health

Team	Leader
David Preston	Y

**Academic Level:** FHEQ5      **Credit Value:** 20      **Total Delivered Hours:** 60

**Total Learning Hours:** 200      **Private Study:** 140

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	48
Online	10
Tutorial	1

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	The student will be assessed via a viva voce and required to critically analyse a clinical case through the utilisation of current under-pinning knowledge.	100	1

<b>Competency</b>	Practice
-------------------	----------

### Aims

*This course will empower the students with the theoretical knowledge required to develop and support the clinical skills that they will be learning and utilising during*

*the practice module and whilst on clinical placement. During the clinical placement the students will be provided with and assessed via a Practice Assessment Document (PAD). The Practice Assessment Documentation must be completed fully and all aspects of the skills log must be signed as competent to be accepted as a pass by sign off mentor and module lead. Therefore the Practice Assessment Document is recorded as either a pass or a fail.*

## **Learning Outcomes**

After completing the module the student should be able to:

- 1 Discuss the theoretical basis of assessment, critical clinical decision-making and management and justify clinical decisions.
- 2 Apply knowledge of anatomy, physiology, pathophysiology to paramedic practice.
- 3 Critically analyse a clinical case through the utilisation of current under-pinning knowledge.
- 4 Demonstrate competency in practice.

## **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Clinical case VIVA	1	2	3	
Practice				4

## **Outline Syllabus**

*Anatomy & physiology  
Pathophysiology of disease and illness  
Medical terminology  
Basic and advanced life support across the age ranges  
Clinical skills application to practice  
12 lead ECG interpretation and recognition  
Obstetric and gynaecological emergencies  
Mental health conditions and patient management*

## **Learning Activities**

Lectures  
Problem based activities  
Directed group work  
Tutorials

## **Notes**

This module will consolidate and assess the students clinical understanding and application of theory and practice.
