Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	Essay	4500 word assignment in which the student will critique and reflect on an professional, legal and ethical issue.	100	

Aims

To enable the students to analyse the professional, legal and ethical issues that influence mental health nursing practice

Learning Outcomes

After completing the module the student should be able to:

1.   Evaluate the impact of organisational, legal, ethical, economic and socio-cultural environmental factors on mental health care delivery
2.   Explore the role of value based, multi-agency working in the delivery of effective mental health care
3.   Examine approaches to challenging oppressive practices and stigmatisation in the context of personal and professional boundaries

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Student critque   1   2   3

Outline Syllabus

Professional values and ethical challenges relating to people's choices and decision making
Inequality, stigma & discrimination
Mental health legislation, policy and evidence based practice. Values based legal and ethical
frameworks.
Critical thinking and decision making.
Recovery-focused approaches to care in situations that are potentially challenging.
Service user involvement and therapeutic engagement, balancing the
need for safety with positive risk-taking.
leadership, management and team working

Learning Activities

A range of learning activities will be used for module delivery including lectures, seminars, workshops, on-line learning, reflective practice, formative assessment, guided reading, independent study.

Notes

This module will focus on contemporary issues that people who use mental health services may experience and will examine the underpinning political frameworks
