Category	Short Description	Description	Weighting (%)	Exam Duration
Report	ASS1	Illustrated report 4500 words	100	

Aims

This module will enable students to understand the development and influences of Health and Safety at Work legislation within the UK and Europe and how such statutory instruments can be applied to the workplaces

Learning Outcomes

After completing the module the student should be able to:

- 1 Appraise the factors that influence health and safety legislation and good practice, including the roles of the Health and Safety Commission and the Health and Safety Executive
- 2 Interpret the Health and Safety at Work Act 1974, including Approved Codes of Practice and the application to workplaces within the UK
- 3 Assess current international, national and local occupational health and safety policies, and strategies.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

4500 word Illustrated report	1	2	3
------------------------------	---	---	---

Outline Syllabus

Development of health and safety; the Health and Safety at work Act 1974 and associated regulations (noise, COSHH etc), interpretation and enforcement of legislation; health and safety role; managing health and safety; health and safety inspections, Investigating a workplace incident/illness; alternative approaches to enforcement, enforcement in high risk premises (definition and reasons for enforcement)

Learning Activities

Interactive lectures and presentations, guided reading, student led discussions, field trips and Canvas.

Notes

In this module the components of health and safety at work are examined. The process of advising and assisting in the interpretation of health and safety at work legislation are explored. The roles and responsibilities of employers and employees in the context of good health and safety at work are analysed
