SEP-CTY	CTY	September	12 Weeks

Aims and Outcomes

Aims	That the student will be able to safely and effectively identify and differentiate the critically injured patient, including those with an exacerbation of existing illness or disease, and ensure the appropriate management of patients with a time-critical injury or illness in accordance with current evidence-based practice.

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Obtain a comprehensive health history in accordance with protocols and current guidelines.
MLO2	2	Propose and utilise appropriate interventions, taking into account the specific therapeutic needs of patients and carers.
MLO3	3	Implement effective critical clinical decision making in order to formulate, negotiate and implement treatment plans for the critically ill patient, with the appropriate use of clinical safeguarding and referral.

Module Content

Outline Syllabus	Knowledge of medical terminologyHistory takingCommon illnesses and conditions across the age rangesPatient assessment across the age rangesTreatment pathways
Module Overview	
Additional Information	The module is both medical and trauma-based and concentrates on developing the ability and confidence necessary to respond in the clinical field. The OSCE will challenge and examine the learners patient assessment skills, decision making and clinical management and is also a pass or a fail.
