Kay Hughes	

Academic Level: FHEQ5
Credit Value: 20
Total Delivered Hours: 60
Total Learning Hours: 200
Private Study: 140

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Online	10
Practical	48
Tutorial	1

Grading Basis: Pass/Not Pass

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	Observed Structured Clinical Examination	100	1

Competency	Practice
-------------------	----------

Aims

That the student will be able to safely and effectively identify and differentiate the critically injured patient, including those with an exacerbation of existing illness or disease, and ensure the appropriate management of patients with a time-critical injury or illness in accordance with current evidence-based practice.

Learning Outcomes

After completing the module the student should be able to:

- 1 Obtain a comprehensive health history in accordance with protocols and current guidelines.
- 2 Propose and utilise appropriate interventions, taking into account the specific therapeutic needs of patients and carers.
- 3 Implement effective critical clinical decision making in order to formulate, negotiate and implement treatment plans for the critically ill patient, with the appropriate use of clinical safeguarding and referral.
- 4 Demonstrate competency in practice.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

OSCE	1	2	3	4
Practice				4

Outline Syllabus

Knowledge of medical terminology

History taking

Common illnesses and conditions across the age ranges

Patient assessment across the age ranges

Treatment pathways

Learning Activities

Tutorials, practice demonstrations and workshops, role plays, simulation, problem solving, self-directed learning, group work and discussions.

Notes

This module is both medical and trauma-based and concentrates on developing the ability and confidence necessary to respond in the clinical field. The module is linked to practice via an OSCE. The OSCE will challenge and examine the learners patient assessment skills, decision making and clinical management.

As this module is intrinsically linked to practice the Practice Learning & Assessment Documentation (PLAD) must have all sign of sections completed and the skills log must be signed competent in all sections. The PLAD will have continued from

module 5008PM. The PLAD is recorded as a 'pass' or 'fail'.
