Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	Report	Business report style, 2,000 words.	50.0	
Report	Report	Business report style, 2,000 words.	50.0	

Aims

To introduce the students to practical and conceptual issues surrounding e-commerce.
To introduce the students to the issues involved for organisations when they are considering adopting an e-commerce strategy and the impact on their existing business.

Learning Outcomes

After completing the module the student should be able to:

LO 1   Analyse, evaluate, describe and explain the advantages of the different types of e-commerce available to organisations.
LO 2   Examine e-commerce issues such as on-line payment systems, security & ethical codes and internet technologies.
LO 3   Identify strategies for incorporating e-commerce technologies within existing organisations.
LO 4   Assess and apply the techniques for search engine optimisation.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Report	LO 1	LO 2

Report	LO 3	LO 4

Outline Syllabus

Module Overview & Introduction to E-commerce.
An introduction and overview of the Internet, Extranets, Intranets, WEB sites and E-commerce sites.
Infrastructure for E-commerce – Changing Business Processes & using Web Technologies.
The difference between the "types" of e-commerce available to organisations and the importance of identifying the correct type for the organisation.
Discuss the techniques for search engine optimisation.

Learning Activities

Learning activities will be through lectures and workshops where students will be encouraged to ask questions of issues raised.
Business case studies will be used to create opportunities for the students to apply the theories gained in lectures and workshops.
