Workshop	12

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	AS1	20 minute presentation with supporting notes and 5 mins for questioning	100	

Aims

This module aims to build on students' knowledge and understanding of typical child development and learning gained in Year 1 through module 4012PRIM Children's Development and Learning. The module will explore various aspects of atypical development and learning in children and various barriers to typical development and learning. Students will be introduced to a variety of strategies and pedagogies for engaging and supporting children with atypical development and learning.

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify, discuss and compare key factors which led to differentiated needs
- 2 Critically discuss characteristics, barriers to learning and strategies for improvement for a range of differentiated learning needs within different settings.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Presentation	1	2
--------------	---	---

Outline Syllabus

Specific learning difficulties e.g. dyslexia, social communication difficulties (ASD), social, emotional and behavioural difficulties, speech, language, communication and interaction needs

Social barriers to atypical development and learning e.g. poverty

Classroom strategies for meeting differentiated needs

Learning Activities

Lectures/ workshops

Field trip/ school-based tasks

Independent study

Notes

This module will build on students' study of typical child development and learning in module 4013PRIM. The module will develop students' knowledge and understanding of atypical development and learning and of social barriers to development and learning. The module will introduce students to strategies and pedagogies to meet the needs of atypical learners.
