

## Liverpool John Moores University

Title: WOUND MANAGEMENT  
Status: Definitive  
Code: **5020PQHEAL** (112332)  
Version Start Date: 01-08-2014

Owning School/Faculty: Nursing and Allied Health  
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Laura Kinsey	Y

**Academic Level:** FHEQ5  
**Credit Value:** 15.00  
**Total Delivered Hours:** 30.00  
**Total Learning Hours:** 150  
**Private Study:** 120

### Delivery Options

Course typically offered: Runs Twice - S1 & S2

Component	Contact Hours
Lecture	10.000
Seminar	10.000
Tutorial	10.000

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	AS1	3000 word Essay and Learning agreement	100.0	

### Aims

*To develop an in depth knowledge of the principles of holistic wound management and to consider current research related to different types of wounds.  
To enable the health care professional to achieve competence in the management of wounds.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate understanding of the importance of an holistic assessment of acute and chronic wounds (KSF 1,3,5,6).
- 2 Review interactive and conventional wound care products (KSF 2).
- 3 Discuss the application of current evidence related to wound care (KSF 4,5).
- 4 Identify and discuss methods to facilitate change in wound management in your clinical area (KSF 1,2, 4).

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Essay	1	2	3	4
-------	---	---	---	---

## Outline Syllabus

*Reflective practice.*

*The evolution of contemporary wound dressings.*

*Holistic assessment of wounds.*

*Comparative treatments for wounds.*

*Professional judgment for decision - making.*

*The patient's journey*

*Wound care across the age spectrum*

*Patient focused care*

*The management of necrotic, sloughy and granulating wounds.*

*Lotions used in wound care.*

*The effects of antiseptics and antimicrobials on wound healing.*

*Multi disciplinary roles in tissue viability.*

*Advanced care and holistic management of chronic wounds (pressure sores, leg ulcers, ischaemic and fungating lesions)*

*Advanced care and holistic management of acute wounds*

*Ethical and legal issues in tissue viability*

*Application of change theory*

*Monitoring and clinical audit of tissue viability*

*Future developments for the optimum wound dressing.*

## Learning Activities

Lectures, clinical workshops / seminars, individual & group tutorial support for the clinical learning contract.

Activities are dependant on the individual needs of the student, as identified in the module learning outcomes.

30 hours clinical practice would normally be expected as part of private study time.

## Notes

The module utilises a problem solving approach to the management of a wide variety of wounds. It provides an opportunity for practitioners to relate their experiences to theory. Case studies will be used to enhance the learning experience.
