## Module Content

Outline Syllabus	The social construction of crime The aims and values of the criminal justice process in England and Wales The various stages of criminal justice from policing to punishment The impact of the criminal justice process
Module Overview	
Additional Information	This module is designed for students studying criminal justice and students studying forensic psychology or LLB Law alongside criminal justice modules. The module aims to explore the criminal justice process in England and Wales. Areas to be examined include: police powers, including the power to stop and search; crime control and due process models of policing; sentencing and punishment. The role of determining contexts such as class, race and gender will be an integral part of the module. Students will be introduced to the issue of theory, policy and practice.
