Aims and Outcomes

Aims	To provide an examination and evaluation of the links between substantive criminal law and criminal justice To provide understanding of the basic principles by which responsibility in the criminal law is assessed, and the socio-legal context underpinning these principles To provide an understanding of the policies and principles which support the substantive law and the way in which it is applied in practice by criminal justice agencies
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Understand and critically evaluate the links between criminal law, criminal justice in practice, and society as a whole
MLO2	2	Understand and critically evaluate the policies and principles which shape the rules determining liability in the criminal law
MLO3	3	Critically evaluate the rules determining liability in the criminal law and their application by criminal justice in practice

Module Content

Outline Syllabus	Actus reusMens reaStrict liabilityCorporate liabilityGeneral criminal defencesInchoate offencesComplicity
Module Overview	This module is designed for students who are studying criminal law alongside criminal justice modules. It aims to provide a critical discussion and analysis of the basic substantive criminal law (in terms of relevant case and statute law), but also aims to relate the substantive criminal law to its application in the criminal justice process in practice, as well as to its socio-legal context in wider society.
Additional Information	This module is designed for students who are studying criminal law alongside criminal justice modules. It aims to provide a critical discussion and analysis of the basic substantive criminal law (in terms of relevant case and statute law), but also aims to relate the substantive criminal law to its application in the criminal justice process in practice, as well as to its socio-legal context in wider society.
