Susan Martin	

**Academic Level:** FHEQ5      **Credit Value:** 20      **Total Delivered Hours:** 57  
**Total Learning Hours:** 200      **Private Study:** 143

### Delivery Options

Course typically offered: Year Long & NS Year Long

Component	Contact Hours
Online	10
Practical	40
Tutorial	1
Workshop	6

**Grading Basis:** Pass/Not Pass

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	Doc	MORA Practice Document	100	

### Aims

*To enable the student to provide care for the woman with additional care needs and risk factors.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate knowledge and understanding of pre-existing, current and emerging complications and additional care needs that affect the woman.
- 2 Make clinical decisions based on need and best practice evidence in relation to women with additional care needs and risk factors and critically reflect upon them.
- 3 Safely demonstrate evidence-based best practice in all core and domain-specific skills.
- 4 Demonstrate the skills of numeracy, literacy, digital, media, and technological literacy needed to ensure safe and effective midwifery practice.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

MORA document	1	2	3	4
---------------	---	---	---	---

## Outline Syllabus

*Clinical Skills: Cannulation, IV Fluid management, amniotomy, episiotomy, Perineal Suturing, CTG interpretation, FSE application, theatre skills, ECG analysis, cord blood sampling.*

*BFI, safe-medicate, Case-loading, instrumental/operative births, enhanced recovery, bereavement care, malpresentation/malposition, optimal fetal positioning, IOL.*

*Assessed practice experience in the care and management of women throughout the childbirth continuum.*

*NMC Standards of Proficiency and the Domains (NMC, 2019).*

## Learning Activities

Lectures with discussions, workshops, on-line learning, tutorials, simulation and self-directed study. Formative assessment will be undertaken by: peer assessment of simulation, peer presentation of caseloading experience, assessment of skills acquisition.

## Notes

This is a non-standard year-long module, and runs across the course of the year to enable practice to be completed.

This module will provide students with the opportunity to consolidate skills practised in levels 4.

The students will undertake caseloading building on their experiences in level 4.

They will be required to pass 100% of their Midwifery Ongoing Record of Achievement: NMC Proficiencies for Midwives (2019) document (MORA).

The Safe Medicate software package will offered to students to formatively practice

their skills. This helps to develop medication management skills.
