Learning Activities

Recorded lectures are provided online via the University's Virtual Learning Environment. The lectures provide narrated recordings of the material in order to identify and explain key concepts and theories and provide detailed information on particular subject areas within the module. They help to stimulate the student's interest in the subject area. Lectures may also include guest industry speakers to add industry context to the material.

Live virtual classrooms are used to engage students in more intensive discussion and activity on particular subject areas within the module. Students login to the virtual classrooms via the University's Virtual Learning Environment. The virtual classrooms help shape the student's own understanding and place the lecture material in context.
