

## **Research Methods II**

# **Module Information**

**2022.01, Approved** 

# **Summary Information**

Module Code	5463SSLN	
Formal Module Title	Research Methods II	
Owning School	Sport and Exercise Sciences	
Career	Undergraduate	
Credits	20	
Academic level	FHEQ Level 5	
Grading Schema	40	

#### **Teaching Responsibility**

LJMU Schools involved in Delivery	
Sport and Exercise Sciences	

# **Learning Methods**

Learning Method Type	Hours
Lecture	25
Tutorial	5
Workshop	10

# Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
JAN-CTY	CTY	January	12 Weeks

## **Aims and Outcomes**

Aims	The aim of this module is to further develop student's understanding of the research process and provide them with an overview of differing research designs and methodologies. In the first half of the module there will be a specific focus on quantitative research, whilst in the second half of the module students will start to develop their own individual Research Proposal. This will require students to work independently to identify an area of research that they would like to conduct a research project in and subsequently find relevant literature within that field to help inform and guide their Research Proposal.
------	--

#### After completing the module the student should be able to:

## **Learning Outcomes**

Code	Number	Description
MLO1	1	Identify and explain the difference methodological approaches within social science research.
MLO2	2	Apply a relevant research design and methodology in order to address your own stated research aim/question.

## **Module Content**

Outline Syllabus	Literature and synthesisOntology and epistemologyResearch methodology and methodsData collection and analysisConstruction and production of a project proposal
Module Overview	This module will enhance your understanding of the research process and develop your skills to complete investigations involving primary data collection and interpretation.
Additional Information	The module will enable students to further develop their academic and research-based skills, knowledge and experience. The module will start students on the process of research design in preparation for their Level six Dissertation Project.

#### **Assessments**

Assignment Category	Assessment Name	Weight	Exam/Test Length (hours)	Module Learning Outcome Mapping
Presentation	Presentation	50	0	MLO1, MLO2
Report	Report	50	0	MLO1, MLO2
