- Infection prevention and control.*
- Numeracy*
- Venepuncture*

## **Learning Activities**

Practice - based activities on clinical placement supervised by a mentor  
Key note Lectures  
Skills simulation

Workshops including role play and scenario based learning  
Interactive web based activities

## **Notes**

\*\* Note: 4501DAUNU is a pre-requisite for this module, and must be successfully completed before registering for this module. This module must be passed prior to registering for 6501DAUNU. \*\*

This module will offer opportunities for students to act in an increasingly competent and autonomous manner in clinical placements. The module will include annual mandatory training in CPR, manual handling and numeracy.

This module aims to extend the student's knowledge and skills through undertaking a range of basic and complex practice learning opportunities. Students will work with less direct supervision to make the most of opportunities to extend knowledge, skills and practice. Enhanced skills are taught in university to prepare students for practice.
