Outline Syllabus

The indicative syllabus for International Trade Law is as follows:

- *Motivations for international trade*
- *Workings of GATT / WTO*
- *International Sales Contracts*
- *Financing International Trade*
- *Dispute Resolution in International Trade*
- *Marine Insurance*

Learning Activities

The module is delivered by a series of lectures and supported by seminar and workshops which offer student the opportunity to engage in small group work, and where appropriate may include the opportunity to deliver an oral presentation either individually or as a group. The seminars will draw on selected case studies, analysis of legal sources, and will require students to undertake independent research and reading to engage in the seminar learning activities and the module content.

Notes

This module is essentially an introduction to the basic principles of international

trade drawing on an understanding of the motivations for nations to engage in international trade and a review of the general principles which underpin the legal regulation of international trade. Key to this is an overview and understanding of the working of the GATT and the WTO and their role in the regulation of international trade. Further, the module introduces the mechanisms for financing international trade and resolving international trade disputes.
