Portfolio	portfolio	Practice portfolio	100	

Aims

To continue to provide the student with opportunities to broaden existing knowledge and clinical skills within a negotiated specialised area of perioperative practice, particularly relating to management and problem solving

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate the ability to transfer and apply existing knowledge and skills into a specialised area of perioperative practice
- 2 Appraise and apply the concepts of problem solving and management to practice
- 3 Analyse personal development needs and engage in reflection and learning in the context of the current practice setting

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Practice portfolio	1	2	3
--------------------	---	---	---

Outline Syllabus

Application of further specialised perioperative practice skills building upon 5506KPJOP

Management skills

Scheduling cases

practical skills will be assessed formatively using OSCEs

Learning Activities

Student centred approach to learning in the clinical field

Action planning and learning agreements

Experiential learning

Tripartite meetings, normally no less than 2 within the duration of the module

Clinically based tutorial sessions with medical professionals, nursing specialists, specialist Trained Theatre Technicians.

Portfolio generation

Notes

This module intends to further the student's basic knowledge and skills and to transfer these into a negotiated area of specialised peri-operative practice.

The portfolio of competency must attain a pass grade and assesses all learning outcomes.
