Competency	Practice
-------------------	----------

Aims

To provide the student with further opportunities to broaden existing knowledge and clinical skills within a negotiated specialised area of perioperative practice

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate the ability to transfer and apply existing knowledge and skills into a specialised area of perioperative practice
- 2 Appraise and apply the concepts of leadership and management to practice
- 3 Analyse personal development needs and engage in reflection on learning in the context of the practice setting

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Exam	1		
NMB Log book	1		
Case study	2	3	
Practice	1	2	3

Outline Syllabus

*Application of specialised perioperative practice skills specific to the placement area
Practical skills will be assessed using a practical assessment and a practice portfolio*

Learning Activities

Student centred approach to learning in the clinical field

Action planning and learning agreements

Experiential learning

Tripartite meetings, normally no less than 2 within the duration of the module

Clinically based tutorial sessions with medical professionals, nursing specialists, specialist Trained Theatre Technicians.

Portfolio generation

Skills workshops using simulation in the skills lab

Notes

This module intends to further the student's basic knowledge and skills and to transfer these into a negotiated area of specialised perioperative practice, building on 5506KPJPP

The portfolio of competency must attain a pass grade and assesses all learning outcomes.

The practical assessment must be passed.

A log book, as specified by Malaysian Nursing Board, forms part of the summative assessment for this module
