SEP-PAR	PAR	September	12 Weeks

Aims and Outcomes

Aims	To provide students with a thorough understanding of modern supply chain management with a focus on gaining and maintaining competitive advantage through the supply chain.

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Explain the difference between a range of supply chain strategies in various contexts.
MLO2	Analyse supply chain management's contribution to competitive advantage.
MLO3	Analyse a range of risk management approaches within the supply chain.
MLO4	Apply performance measurement techniques and make recommendations for improvement.

Module Content

Outline Syllabus
• Supply Chain Dynamics• Competitive Advantage through the Supply Chain• Supply Chain Strategies• Supply Chain Performance• Supply Chain Improvement• Risk Management in the Supply Chain• Agile Supply Chains and Humanitarian Operations• E-Commerce and Reverse Supply Chains• Managing Digital Supply Chains

Module Overview

Additional Information
This module will develop the students' understanding of supply chain management, building on concepts developed in core modules taken in Level 4. It forms an integral part of the Operations and Supply Chain Management pathway. It will enable students to differentiate between different supply chain approaches in a wide range of contexts, assess supply chain performance, plan improvements, and assess risks.
