Team	Leader
James Eden	Y

Academic Level: FHEQ5
Credit Value: 20
Total Delivered Hours: 46
Total Learning Hours: 200
Private Study: 154

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	11
Seminar	11
Workshop	22

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	EXAM	To attempt 3 from 6 questions from an unseen examination.	75	2
Presentation	PRES	In groups of up to 6 students, to prepare and present a review of one month's financial events to their peers.	25	

Aims

*A critical understanding of international financial system – its role, risks and regulation of financial institutions, instruments and markets:
the ability to critically evaluate the role of financial institutions, markets and*

regulators in an increasingly volatile global market and an opportunity to evaluate the impact of major economic events / developments in the monetary and financial system.

Learning Outcomes

After completing the module the student should be able to:

- 1 Analyse and evaluate the role and management of the monetary system and financial institutions in its ever changing environment.
- 2 Evaluate the role of international financial markets in providing finance, liquidity, their ability to manage financial risk and assess their efficiency.
- 3 Evaluate the strategic and financial risk management issues / techniques currently facing the financial services sector and the economy as a whole and how this impacts upon organisation funding options.
- 4 Critically evaluate the international regulatory regime and if there is a need for regulating the financial system.
- 5 Critically evaluate developments in the monetary and financial system and be able to competently discuss within a presentation summarising such events.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	1	2	3	4
PRESENTATION	5			

Outline Syllabus

The module will review the following key areas of international monetary and financial systems in order to gain an understanding as to how these impact upon an businesses operating within it:

- 1. Monetary System – the money supply, Monetary Policy Committee, interest rates, inflation and the usage of quantitative easing;*
- 2. Financial System – Institutions and how various financial instruments – bills, bonds etc flow within markets and how efficient are they in terms of liquidity and level of risk;*
- 3. Financial Institutions what is there role; what risks exist and what regulatory attempts have been implemented to mitigate these; to evaluate just if such measures have achieved to manage such risks;*
- 4. Savings, investment intuitions and finance providers, why are they of relative importance to business and how can they obtain maximum growth potential from them.*

Learning Activities

In order to simulate the students they will be actively monitoring UK and international financial events, preparing a monthly summary as to how these could have an impact upon an organisation.

Case studies will be reviewed to identify how businesses have responded to historic financial crisis events. This will allow development of strategies as to how businesses should respond to such changes and develops earlier knowledge from contemporary business issues from level 4 and with level 5 link / apply knowledge gained through the core modules of economics and international institutions, trade and markets. It will also establish connections with level 6 modules of strategic management and the financial risk management option.

The module is fully supported by Blackboard including lecture notes, case studies, internet links and appropriate literature sources.

Notes

a critical understanding of international financial system – its role, risks and regulation of financial institutions, instruments and markets:
the ability to critically evaluate the role of financial institutions, markets and regulators in an increasingly volatile global market and
an opportunity to evaluate the impact of major economic events / developments in the monetary and financial system.
